WILLOW LABORATORIES DONATES VAN TO FAMILY

Lynn, Massachusetts, February 7, 2006 – Willow Laboratories announces that it is donating a Dodge Grand Caravan SE to Seth and Leavitt Andreson of Kingston, MA and their four children and three sibling foster children. The Andreson's are a foster family for the Department of Social Services.

After reading about the family, Dr. Brian Strasnick, Founder, President & CEO of Willow Laboratories knew what needed to be done to help this amazing family.

The Andreson's story began in November of 2005. While driving, Seth was hit by a drunk driver who was heading the wrong way on an exit ramp. This left the family without a car and even through those challenges, they were determined to keep everyone together.

The van was purchased by Willow Labs with the assistance of David Rosenberg, President of Ira Motor Group in Danvers, MA. After speaking with Dr. Strasnick, Rosenberg offered Ira's assistance in locating a van and donated money towards its purchase.

On **Wednesday, February 8th, 1:00pm at Willow Laboratories in Lynn**, Founder, President and CEO, Dr. Brian Strasnick will present the keys to the Andreson family.

Willow Laboratories is New England's fastest-growing provider of comprehensive drug-testing services. Willow assists with the design/implementation of beneficial and cost-effective programs. Willow works with government agencies, corporations, residential treatment facilities, and medical professionals.

When: Wednesday, February 8th

Where: Willow Labs - 280 Union Street, Lynn, MA (parking lot), 781.268.2400

Time: 1:00 p.m.
